

Seminar Announcement

Science-related Seminars presented by MESA, Bridges to Baccalaureate (SFSU) and the Skyline College Chemistry Department

Tuesday, April 28, 2009

Macrophages: Are the Coolest Cells In the Body *by Dr. Steve Weinstein*

Dr. Weinstein is an Associate Professor at San Francisco State University whose research focuses on immunology. He will discuss his work on macrophages, key cells in the immune system and bone regulation. He is also the director of the *Bridges to Baccalaureate* program, a partnership between SFSU, Skyline and CCSF to promote the advancement of minority community college students in science.

Time: 4:00 pm

Room: Building 7, Room 7-106
