

Interior Design Student Learning Outcomes: (program review 2007)

Upon success completion of an Interior Design Certificate, the student will be able to:

- Design an appropriate interior space plan and arrangement for a client based on their needs.
- Draft floor plans, elevations, and other necessary drawings of interior spaces
- Select and specify appropriate furnishings and materials for an interior space, based on client needs.
- Apply principles and element of design when designing a space for a client
- Apply the progression of style from both a historical and cultural context to interior spaces and the selection of furnishings styles.
