

## MART 405 – STUDENT LEARNING OUTCOMES

Upon completion of this class, students will be able to:

1. Analyze and deconstruct existing storyboard samples.
2. Plan and develop a rough thumbnail storyboard in several different versions that will serve as a base to create a finalized project.
3. Create simple sketching and shading techniques to represent mood and tone in each scene.
4. Compare and analyze the importance and placement of storyboarding in the pre-production process of film making.
