

SLO Assessment Plan

Department: Health Science Course: HSCI 115

SLO	Assessment Method
1. Compare the scope of practice, educational preparation, certification and licensing standards, and the legal, economic and political aspects of the various health and health-related professions.	In-class examinations, written reports, or in-class presentations.
2. Discuss the history and projections for future practice of the health and health-related professions.	In-class examinations or written reports.
3. Describe the current model of institutions and practices for delivery of health care services in the United States.	In-class examinations or written reports.
4. Describe the current health insurance systems in the United States and discuss the trends and opportunities for financing of insurance coverage.	In-class examinations, written reports, or in-class discussions/presentations.
5. Analyze the arguments surrounding health care/insurance reform and the role of the consumer in determining quality and effectiveness of the system.	Written reports or in-class discussions/presentations.
