

Cell Communication

- Identify:**
Adenylyl cyclase
Calmodulin
cAMP
G protein
GTP
Hormone
IP₃
Protein kinase
Receptor
Tyrosine kinase

	Sympathetic stimulation	Parasympathetic stimulation
Transmitter		
Eye-iris		
Glands		
Sweat		
Salivary		
Lungs-bronchi		
Heart		
Stomach-intestine		
Hair follicles		
	Method of Action	Effects
Organophosphate		
Atropine		
Tetanus toxin		
Botulinum toxin		
Caffeine		
Cocaine
