

Section	Exercises	Date Due
1.1	5, 12, 18, 22, 29, 36, 38, 41, 48, 55, 62, 67, 72, 77 Show all work and write your answers in complete sentences (where appropriate)	
1.2	2, 5, 16, 17, 21, 26, 29, 32, 37, 40, 42, 45, 54 Use graph paper for graphing problems. Show all work and write your answers in complete sentences (where appropriate)	

Beginning with section 1.3, ALL homework will be submitted online using MyMathLab by CourseCompass.

You need to purchase a MyMathLab code by Tuesday, January 27, when I will be showing you how to register and use it.

MyMathLab is bundled with new textbooks (cheapest), available in the bookstore (about \$71), or online at <http://www.coursecompass.com> (for \$65).

- Homework assignments are available on <http://www.coursecompass.com>
- Homework is due at the beginning of class the class period after it was assigned. (It will no longer be available to you after the following class period.)
- While homework is done and submitted online, it is helpful to work out problems in a spiral bound notebook.
- Come to our study groups in the Math Lab on Tuesdays and Thursdays from 2 – 3 p.m.
- Free math help is available in the Tutoring Center and the Math Lab, both located on the second floor of Building 9.

Expect to spend at least ten to twelve hours per week doing homework and studying for this course.

(That works out to about 1.5 to 2 hours per day.)
